

18 Inch Round Brine Tanks

**18x40 Brine Tank with
Blow Molded Cover**

**18x33 Brine Tank with
Black Injection Molded Cover**

Clack's 18 inch blow molded round brine tanks offer a refreshing look in the residential and light commercial brine tank field. Durable materials and the latest in plastic processing technology provide trouble-free performance. Ultraviolet inhibitors (UVI) are now standard in all tanks except black, which has a natural resistance to the sun's rays. Three different sizes are available for up to 450 lbs. of salt capacity.

Advantages:

- Attractive design to meet customer appeals with four modern stock colors to choose from — almond, blue, black and white. (Custom colors available.)
- Blow molded from high-density polyethylene to give exceptional environmental stress-crack properties providing years of trouble-free service.
- These tanks can be top loaded on other Clack water treatment components and drinking water systems to substantially reduce total shipping costs.
- All round brine tanks are individually shipped in a durable 150# test reshipper carton.
- Optional injection molded grid promotes uniform brining and reduced salt bridging.

24" and 30" Commercial/Industrial Blow Molded Brine Tanks

30x50 Black Brine Tank

24x50 Black Brine Tank

Clack now offers both 24" and 30" round blow molded brine tanks. The introduction of the 30" diameter tank makes it the largest blow molded brine tank for commercial/industrial applications. Like the 24" round tank, the 30" tank is molded of high density polyethylene for exceptional stress and crack resistant properties. These tanks are ideal for industrial and commercial use and the 30" tank feature heavy wall thickness for increased durability.

Injection molded grids are available for both 24" and 30" tanks and use 1½" schedule 40 PVC pipe for leg supports. The legs can be cut to any length for easy grid height adjustment. A precut leg kit for the 24" grid is also available, giving it an overall grid height of 10¼".
